UPON REQUEST

WORK EXPERIENCE

JAVA INTEGRATION AND ESB DEVELOPER

Teacher Retirement System of Texas | Austin, Texas | 2019 - Present

- Developed microservices in Spring Boot for deployment to the Kubernetes-based OpenShift environment. Local deployments managed in Docker.
- Developed OSGi-compliant Java components/bundles for Redhat's Karaf-based Fuse 7.11 environment.
- Collaboration with other business units via Agile methodologies.
- Developed bundles using OSGi specifications: Blueprint for dependency injection, JPA and JTA for database integration, JAX-RS for Web Services, and others.
- Developed OSGi services that integrated legacy application and data systems with newer systems.
- Worked with third-party APIs such as Okta, Experian, and OneSpan for Java to develop integration components.
- Worked closely with ESB team to develop a next generation of ESB code for the agency.

SENIOR JAVA APPLICATION DEVELOPER

Colorado General Assembly | Denver, Colorado | 2016 - 2019

- Senior application developer for the supporting non-partisan agency of the Colorado General Assembly.
- Developed integration applications in Java using Spring Boot.
- Developed applications using the ArcGIS API for JavaScript.
- Team lead on the development of an internal integration Spring Boot application using the Akoma Ntoso XML schema that streamlined the publication of Colorado session laws.
- Lead developer for the agency's internal iOS mobile application.
- Met with members of the legislature regularly to gather requirements for ongoing and future development efforts to streamline legislative processes.

SENIOR APPLICATION DEVELOPER

Texas Education Agency | Austin, Texas | 2010 - 2016

- Senior Web Administrator and primary technical lead.
- Developed and administered .Net (VB and C#), Perl, PHP applications and web services.
- Developed applications using Agile methodology in Visual Studio and Eclipse environments.
- Lead developer and administrator for the agency's Episerver (formerly Ektron) and Sharepoint deployments.
- Managed changes to internal and external agency Web, COTS, and custom applications.
- Coordinated with communications department to develop agency Web policy and operating procedures.
